

Product Portfolio

Threat Detection & Response	RSA NetWitness® Logs & Packets	Provide enterprise-wide visibility into network traffic and log event data to automate the detection of threats and reduce attacker free time from weeks to hours, before damage is done to the business.
RSA NetWitness® Suite	RSA NetWitness® Endpoint	Detect advanced malware and quickly respond leveraging innovative live memory analysis.
	RSA NetWitness® SecOps Manager	Orchestrate response, prioritize actions based on business impact, and expand your analysts' expertise.
Identity	RSA SecurID® Access	Enable secure and convenient access for any user, from anywhere to anything; leverage a range of authentication methods and SSO to suit any use case across any resource (cloud, mobile, web, traditional).
RSA SecurID® Suite	RSA® Identity Governance & Lifecycle	Understand who has access to which applications and data resources; ensure user access compliance with security & regulatory policies, and efficiently manage the identity lifecycle. Automate user access changes with rapid on-boarding of on-premise and cloud-based applications.
Governance, Risk & Compliance	RSA Archer® IT & Security Risk Management	Proactively identify, classify, and remediate IT security risks.
RSA Archer® Suite	RSA Archer® Regulatory & Corporate Compliance Management	Document your GRC control framework, assess design and operational effectiveness, and respond to policy and regulatory compliance issues.
	RSA Archer® Enterprise & Operational Risk Management	Through governance, risk, and compliance (GRC), proactively address risk management of your reputation, finances, operations, and IT infrastructure.
	RSA Archer® Audit Management	Manage GRC audit planning, staffing, fieldwork, and reporting centrally; coordinate information among risk, compliance, and audit teams.
	RSA Archer® Business Resiliency	Track operational incidents, automate business continuity and disaster recovery planning and enable crisis management in one GRC solution.
	RSA Archer® Third Party Governance	Centralize vendor data, manage relationships, assess vendor risk, and ensure compliance with your governance, risk, and compliance (GRC) policies and controls.
	RSA Archer® Public Sector	Manage Assessment & Authorization (A&A) and Continuous Monitoring for compliance and risk management.
Anti-Fraud	RSA® Adaptive Authentication	Identify high-risk logins and prevent fraudulent transactions with risk-based authentication.
RSA Fraud & Risk Intelligence Suite	RSA® FraudAction™ Services	Prevent phishing, malware, rogue mobile apps, and other cybercrime threats that target online and mobile users and gain Dark Web intelligence on prolific cybercrime rings and the latest advanced attacks.
	RSA® Web Threat Detection	Detect cyber threats, prioritize actions based on business impact, and expand your analysts' expertise by leveraging advanced behavioral analytics.
	RSA® Adaptive Authentication for eCommerce	Prevent online card not present eCommerce fraud with risk based transaction authentication via 3D Secure without impacting the user experience.
